WELFARE SERVICES  
GROUP**

# IN THE NAME OF ALLAH, THE MOST GRACIOUS THE MOST MERCIFUL

## INTRODUCTION

The Riyadhha Health & Welfare Services Group, under the umbrella of Riyadhha Mosque and Islamic Centre Lamu, held its Annual Free Medical Camp, the 20<sup>th</sup> Edition since inception, from 17<sup>th</sup> October to 22<sup>nd</sup> October 2022. Like in all previous editions, it was held as part of the World famous Maulid Festival.

This year's Free Medical Camp was graced by a Multi-Disciplinary Team of Experienced Medical Personnel sourced from various parts of the Country and Prominent Hospital Institutions like Kenyatta National Hospital, Coast General County Referral Hospital, The Aga Khan University Hospitals, all of whom were yearning to volunteer their professional services.

Since its inception, this Annual Free Medical Camp has provided Free Medical and Surgical Services to the needy who either cannot access Specialized Treatment from their remote places or cannot afford the cost. Keeping up last year's spirit, we went the extra mile of providing 'home visits' as well, to bedridden patients, who couldn't get to the designated Camp sites. These achievements have been possible through the Voluntary and Selfless Spirit offered by Medical and Non-Medical Personnel who included Prominent Consultant Surgeons and Physicians and supported by Medical Officers and Nurses.

The Riyadhha Mosque and Islamic Centre Lamu as well as the Lamu Community extend very Special Accolade and Gratitude to all those who volunteered their services, or assisted in cash, drugs, materials and kind.

We take this opportunity to thank all those Medical Practitioners, of various cadres, who took time off from their Stations and/or Private Clinics for realizing the need to offer back to the community, and only expecting Allah's reward.

A special mention is also hereby made of the Riyadhha Health & Welfare Services Group, (steered by the founding patron Hon. Abubakar M. Badawy) who are the managers and whose efforts were supplemented by volunteers from Lamu Women Alliance as well as independent volunteers.

All these demonstrated an impressive performance in complementing the presence and efforts of the Medical Teams.

Without the magnanimous spirit of these "Friends of Riyadhha", the camp would not have been successful.
